YOUR REF.

OUR REF.

DATE

ATH/MC:

November 18th 1930.

Capt: H. C. Boys,

London.

Dear Capt: Boys,

Thanks for your P.O. in settlement of our small account,
 for which receipt is enclosed.

We have been having a very slow time lately. Overseas
 trade has fallen away badly. Australia is completely closed down so far as
 orders for shooting accessories are concerned. The low prices for rubber
 and tin have cut down business with the countries producing these goods to a
 minimum and we cannot deal with the Continent because they can produce so
 much cheaper and are protected by tariffs into the bargain.

I think it is very bad policy on the part of I.C.I. to
 refuse to supply any line in demand, however small. As virtual
 monopolists they should take care to give no cause for complaint, and thereby
 maintain their position by good will alone.

I am glad to say that we can supply Halger .280 and .244
 cartridges from stock, and I am prepared to treat the matter as strictly
 confidential.

Yours sincerely,

A. C. Hale
